

Settlement Services and Language Assessment

Do your ESL learners need immigrant services or language testing?

Newcomers to Canada can access settlement in many urban and rural communities across Alberta. These organizations offer orientation, mentorship, employment, career consulting, interpretation, counselling, and citizenship information.* Language assessment centres provide authorized referrals to government-funded language training (LINC), placement testing, and nationally recognized proficiency testing.* Use this tip sheet to locate agencies and organizations serving Alberta communities.

*Not all organizations will offer all services. Contact the organization directly to determine what specific services they provide.

Fort McMurray, Grande Prairie, and Lloydminster
